Paperless Online Benefit Management System offers Cost Effective Solution

BeneTrac takes employee benefits management to a higher level via the Web. An Internet-based suite of tools for HR professionals offers simplified administration and employee access to electronic enrollment in their benefits.

Users enjoy significant increases in accuracy and dramatic reduction in processing time. This efficient solution allows real time access to benefits information for HR and employees and eliminates the need for tedious paperwork and manual data entry.

Product Features

- **Real-Time Access to Information for Both Administrators and Employees**
BeneTrac's real-time access keeps administrators and employees up-to-speed with information that is updated 24/7.
- **Gatekeeper Authority**
A group administrator approves all data, including enrollments and changes in demographic data, before it is transmitted to the carrier.
- **Eligibility Tracking**
BeneTrac manages and calculates eligibility and effective dates for new hires according to each group's unique rules. This yields a much higher accuracy rate than is possible with paper forms.
- **List Bill Audit Service**
To ensure accuracy of carrier invoices, BeneTrac Analysts regularly audit carrier billings with the enrollment data in the system.
- **Hidden Paycheck**
Employers can quickly generate graphic and spreadsheet reports of an employee's total compensation package-including annual earnings and employer paid benefits.
- **Report FactorySM**
BeneTrac makes getting information out of the system as easy entering it in with Report Factory. Administrators can access standard industry reports or create custom reports quickly in Adobe® PDF and Microsoft® Excel.
